

Clearing Broker Disclosure Document

Version: January 2021

Barclays Bank PLC

Direct and Indirect Clearing

Introduction

Throughout this document references to “we”, “our”, “Barclays” and “us” are references to Barclays Bank PLC acting as clearing broker. References to “you” and “your” are references to the client.

What is the purpose of this document?

To enable us to comply with our obligations as a clearing broker under EMIR¹ as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended) (the **EUWA**) which requires that where we are providing services to you that involve us clearing derivatives through an EU or UK central counterparty (**CCP**)², we must:

- Offer you a choice of an individual client account or an omnibus client account (as discussed under “*The types of accounts available*” in Part One B below);
- Publicly disclose the levels of protection and costs associated with different levels of segregation; and
- Describe the main legal implications of different levels of segregation

Additionally, to enable us to comply with our obligations as a clearing broker under the Indirect Clearing RTS³ as it forms part of domestic law by virtue of the EUWA, which require that, where we are providing services to you that involve us facilitating the indirect clearing of derivatives through an EU CCP⁴ or UK CCP, we must:

- Offer you a choice of a basic omnibus indirect client account or a gross omnibus indirect client account (as discussed under “*The types of accounts available*” in Part One B below);
- Publicly disclose the levels of protection and costs associated with different levels of segregation; and
- Describe the main legal implications of different levels of segregation

We have provided the costs associated with the different levels of segregation separately. Details of these can be found on our publicly available website.

Please note that this disclosure document only covers information relating to the clearing broker role of our Barclays Bank PLC entity. The equivalent disclosure documents for our affiliates, Barclays Capital Inc. and Barclays Bank Ireland PLC, which also operate as clearing brokers on certain CCPs, can be found on our publicly available website.

In respect of the treatment of margin and collateral at CCP level you should refer to the CCP disclosures that the CCPs are required to prepare.

Organisation of this document

This document is set out as follows:

- Part One A provides some background to clearing
- Part One B gives information about the differences between the individual client account, the omnibus client account, the basic omnibus indirect client account and the gross omnibus indirect client account, explains how this impacts on the clearing of your derivatives and sets out some of the other factors that might affect the level of protection you receive in respect of assets provided to us as margin

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

- Part One C sets out some of the main insolvency considerations
- Part One D sets out a general overview of the terms and conditions under which we provide services to you.
- Part Two provides an overview of the main variations on the different levels of segregation that the CCPs offer, together with an explanation of the main implications of each, and sets out links to further information provided by the CCPs. For the position relating to any particular CCP you should refer to the disclosure and any other information prepared by the CCP.

In this document references to EU regulation will include the corresponding laws, regulations and guidance (as may be amended) on-shored into UK domestic law under the EUWA.

What are you required to do?

You must review the information provided in this document and the relevant CCP disclosures and confirm to us in writing which client account type you would like us to maintain with respect to each CCP on which we clear derivatives for you from time to time and whether you agree with the way in which we propose to deal with any excess margin we may hold in relation to an individual client account. We will explain how we would like you to make this confirmation and by when. If you do not confirm within the requested timeframe, we will not be in compliance with our obligations under EMIR as it forms part of domestic law by virtue of the EUWA, which is not a position we can continue with indefinitely. In the meantime, we will continue to clear your derivatives, either using the existing account structure or an omnibus client account, as this is the most similar of the new account types to the existing account structure.

Where we offer to facilitate indirect clearing services, you will also need to confirm to us whether you intend to provide clearing services through us to your clients and inform us of your clients' choice of indirect client accounts. We will explain how we would like you to make this confirmation and by when.

Important

Whilst this document will be helpful to you when making this decision, this document does not constitute legal or any other form of advice and must not be relied on as such. This document provides a high level analysis of several complex and/or new areas of law, whose effect will vary depending on the specific facts of any particular case, some of which have not been tested in the courts. It does not provide all the information you may need to make your decision on which account type or level of segregation is suitable for you. It is your responsibility and, where applicable, the responsibility of your clients to review and conduct independent due diligence on the relevant rules, legal documentation and any other information provided on each of the account offerings and those of the various CCPs on which we clear derivatives for you and, where applicable, your clients. You and, where applicable, your clients may wish to appoint independent professional advisors to assist with this.

WE SHALL NOT IN ANY CIRCUMSTANCES BE LIABLE, WHETHER IN CONTRACT, TORT, BREACH OF STATUTORY DUTY OR OTHERWISE FOR ANY LOSSES OR DAMAGES THAT MAY BE SUFFERED AS A RESULT OF USING THIS DOCUMENT. SUCH LOSSES OR DAMAGES INCLUDE (A) ANY LOSS OF PROFIT OR REVENUE, DAMAGE TO REPUTATION OR LOSS OF ANY CONTRACT OR OTHER BUSINESS OPPORTUNITY OR GOODWILL AND (B) ANY INDIRECT LOSS OR CONSEQUENTIAL LOSS. NO RESPONSIBILITY OR LIABILITY IS ACCEPTED FOR ANY DIFFERENCES OF INTERPRETATION OF LEGISLATIVE PROVISIONS AND RELATED GUIDANCE ON WHICH IT IS BASED. THIS PARAGRAPH DOES NOT EXTEND TO AN EXCLUSION OF LIABILITY FOR, OR REMEDY IN RESPECT OF, FRAUDULENT MISREPRESENTATION.

Please note that this disclosure has been prepared on the basis of English law save as otherwise stated. However, issues under other laws may be relevant to your due diligence. For example, the law governing the CCP rules or related agreements; the law(s) governing our insolvency; the law of the jurisdiction of incorporation of the CCP; and the law of the location of any assets.

Part One A: A brief background to clearing

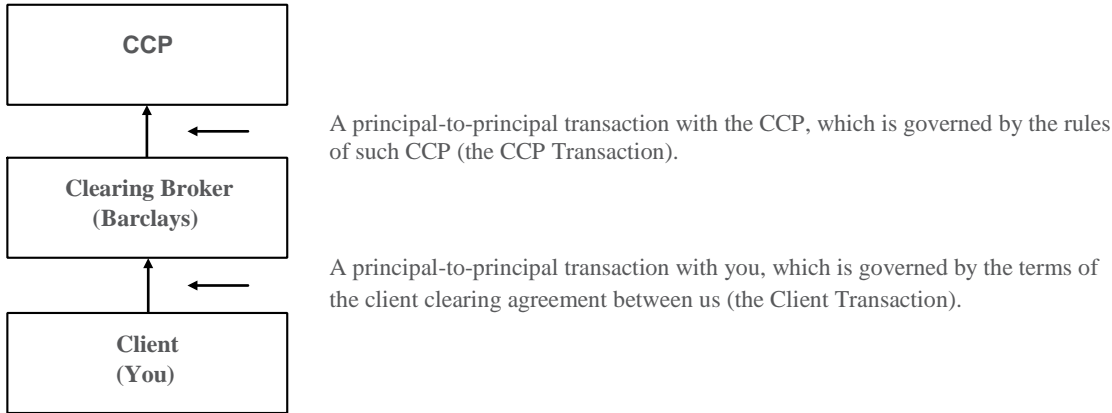

The market distinguishes two main types of clearing models: the "agency" model and the "principal-to-principal" model. Most of the CCPs we use adopt the "principal-to-principal" model, and this document assumes all transactions are cleared according to this model. The following does not address the agency model adopted by BME Clearing for the agency model individually segregated accounts, which is addressed in the BME Supplement to this document.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

The “principal-to-principal” clearing model

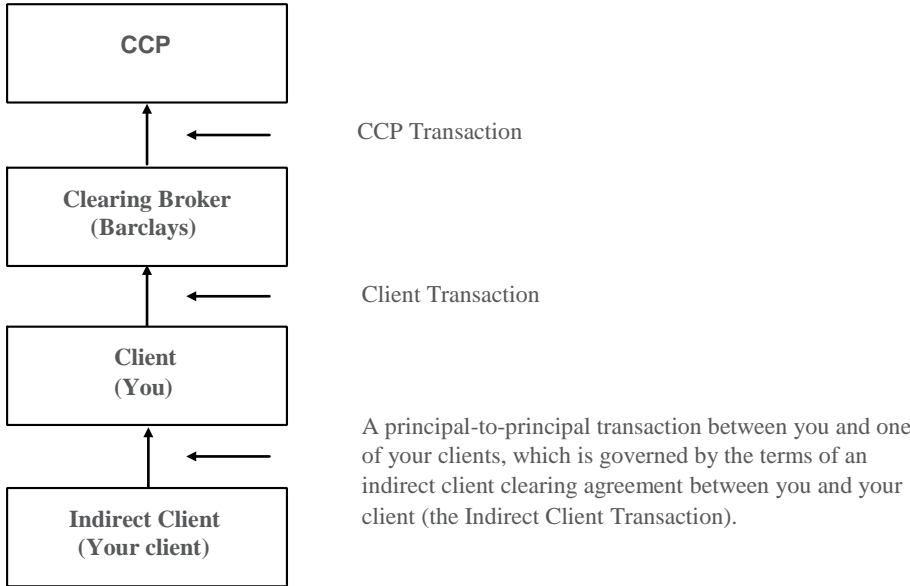

When clearing transactions for you through a CCP, we usually enter into two separate transactions:

A principal-to-principal transaction with the CCP, which is governed by the rules of such CCP (the CCP Transaction).

A principal-to-principal transaction with you, which is governed by the terms of the client clearing agreement between us (the Client Transaction).

Additionally, where we facilitate indirect clearing services, i.e. facilitate the clearing by you through us of positions for your own clients, you may enter into a third principal-to-principal transaction with one of your clients:

CCP Transaction

Client Transaction

A principal-to-principal transaction between you and one of your clients, which is governed by the terms of an indirect client clearing agreement between you and your client (the Indirect Client Transaction).

The terms of each Client Transaction are equivalent to those of the related CCP Transaction, except that (i) each Client Transaction will be governed by a client clearing agreement between you and us⁵ and (ii) we will take the opposite position in the CCP Transaction to the position we have under the related Client Transaction. Similarly, where applicable, the terms of each Indirect Client Transaction are equivalent to those of the related Client Transaction which, in turn, is equivalent to those of the related CCP Transaction, except that (i) each Indirect Client Transaction will be governed by an indirect client clearing agreement between you and your client, and (ii) you will take the opposite position in the Client Transaction to the position you have under the related Indirect Client Transaction.

Under the terms of the client clearing agreement between you and us, a Client Transaction will arise without the need for any further action by either you or us, as soon as the CCP Transaction arises between us and the CCP. Once both of those transactions have been entered into, your transaction is considered to be “cleared”. Similarly, where applicable, we expect that under the terms of the indirect client clearing agreement between you and your client, an Indirect Client Transaction will arise without the need for any further action by either you or your client, as soon as the Client Transaction arises between you and us. Once all three of those transactions referred to above have been entered into, your client’s transaction is considered to be “cleared”.

*Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.
This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.*

As the principal to the CCP, we are required to provide assets to the CCP as margin for the CCP Transactions that relate to you and your clients and to ensure the CCP has as much margin as it requires at any time. We will therefore ask you for margin and, where you provide it in a form which we cannot transfer to the CCP, we may transform it. If you have provided us with margin assets, you may face what we call “transit risk” – this is the risk that, if we were to default prior to providing such assets to the CCP, the assets that should have been recorded in your account at the CCP will not have been and will not benefit from the protections described below under “*What happens if we are declared to be in default by a CCP?*”. However, in many cases you may not actually face transit risk because the CCPs often call margin from us early in the morning so we will often use our own funds to satisfy the margin call and then seek to recover such amount from you. In these cases, it is rather that we are exposed to you for the interim period. The arrangements between you and us relating to how the margin calls will be funded will be set out in the client clearing agreement between you and us.

If we are not a member of such CCP ourselves, we may offer you alternative solutions:

- Where we do not facilitate indirect clearing services provided by you, we may enter into a principal-to principal transaction with an affiliate or third-party clearing broker which is a member of such CCP, instead of a principal-to-principal transaction directly with such CCP. Such arrangements are outside the scope of this document, and we will provide you with a separate Client Disclosure Document with respect to such arrangements
- Where we facilitate indirect clearing services provided by you, for any of your clients that have opted for a Basic Omnibus Indirect Client Account and that are not part of our group, we may enter into a principal-to principal transaction with an affiliate clearing broker, which is a member of such CCP, instead of a transaction directly with such CCP in a long chain arrangement under the Indirect Clearing RTS (a **Long Chain Arrangement**). Under a Long Chain Arrangement, both the affiliate clearing broker and we would be subject to the relevant requirements for clearing brokers in the Indirect Clearing RTS. Consequently, any references in this document to “clearing broker” should be read, where relevant, as including us in the capacity of a client of an affiliate clearing broker under a Long Chain Arrangement⁶

Please see Part One B for an explanation of how this is relevant to the choice of account types.

What if you want to transfer your Client Transactions to another clearing broker?

There may be circumstances where you wish to transfer some or all of your Client Transactions to another clearing broker on a business as usual basis (i.e. in the absence of us having been declared in default by a CCP). We are not obliged to facilitate this under EMIR or the Indirect Clearing RTS, as they form part of domestic law by virtue of the EUWA, but we may be willing to do so subject to our ability to transfer the CCP Transactions to which they relate and the margin provided to the CCP in connection with them (which will depend on the relevant CCP’s rules) and any conditions set out in our client clearing agreement. You will also need to find a clearing broker that is willing to accept such Client Transactions and the related CCP Transactions and assets.

It may be easier to transfer Client Transactions and CCP Transactions that are recorded in an Individual Client Account than those recorded in an Omnibus Client Account (both types of account being described in more detail in Part One B) for the same reasons as set out below under “*Will the CCP Transactions and assets relating to you be automatically ported to a back-up clearing broker?*”. Similarly, where applicable, it may be easier to transfer Client Transactions relating to your Indirect Client Transactions and the corresponding CCP Transactions that are recorded in a Gross Omnibus Indirect Client Account than those recorded in a Basic Omnibus Indirect Client Account (both types of account being described in more detail in Part One B) for the same reasons as set out below under “*Will the CCP Transactions and assets relating to you be automatically ported to a back-up clearing broker?*”.

What happens if we are declared to be in default by a CCP?

If we are declared to be in default by a CCP, there are two possibilities with respect to the CCP Transactions and assets related to you and, where applicable, your clients:

- With respect to Individual Client Accounts, Omnibus Client Accounts and Gross Omnibus Indirect Client Accounts (and, in certain circumstances, Basic Omnibus Indirect Client Accounts)⁷, the CCP will, at your request, try to transfer (**port**) to another clearing broker (a **back-up clearing broker**), such CCP Transactions and assets; or
- If porting cannot be achieved with respect to such accounts and ordinarily with respect to Basic Omnibus Indirect Client Accounts, the CCP will terminate the CCP Transactions that relate to you or your clients, respectively (see “*What happens if porting is not achieved*” below)

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

The porting process will differ depending on the CCP but it is likely to involve a close-out (with us) and a reestablishment (with the back-up clearing broker) of the CCP Transactions or a transfer of the open CCP Transactions and related assets from us to the back-up clearing broker. In some cases CCPs will support this structure legally by requiring us to grant a security interest to you over some or all of our related rights against the CCP but in other cases where CCPs can rely on EMIR and local legislation, this is not necessary.

Will the CCP Transactions and assets relating to you and, where applicable, your clients be automatically ported to a back-up clearing broker?

No, there will be a number of conditions which must be satisfied before the CCP Transactions and assets that relate to you and, where applicable, your clients can be ported to a back-up clearing broker. These conditions will be set by the CCPs and will include obtaining your consent. In all cases you will need to have a back-up clearing broker that has agreed to accept the CCP Transactions. You may wish to appoint a back-up clearing broker upfront as part of your clearing arrangements but the back-up clearing broker is unlikely to be able to confirm that it is willing to accept the CCP Transactions until the default occurs. The back-up clearing broker may also have conditions that they require you to meet. You may also be able to agree with the CCP that it may choose a back-up clearing broker on your behalf. If you have not appointed a back-up clearing broker prior to our default, or agreed with the CCP that it may appoint one on your behalf, then this may mean that porting is less likely to occur.

If porting is achieved, your Client Transactions with us will terminate in accordance with our client clearing agreement, but we would expect that any Indirect Client Transactions between you and your clients would be unaffected. We would expect your back-up clearing broker to put in place new client transactions between itself and you.

The type of account and level of segregation will have an impact on the ability to port CCP Transactions and assets to a back-up clearing broker upon our default.

With regard to a Basic Omnibus Indirect Client Account (described in more detail in Part One B), no contractual arrangements will be in place for porting and, therefore, porting will ordinarily not be available⁸. With regard to an Omnibus Client Account (described in more detail in Part One B), in most cases, all of our clients who have CCP Transactions and assets relating to them recorded in the same Omnibus Client Account will have to agree to use the same back-up clearing broker, and the back-up clearing broker will have to agree to accept all of the CCP Transactions and assets recorded in that Omnibus Client Account. It is therefore likely to be difficult to achieve porting in relation to an Omnibus Client Account or a Basic Omnibus Indirect Client Account.

It should be easier to achieve porting in respect of your positions if you choose an Individual Client Account (described in more detail in Part One B), because you can appoint a back-up clearing broker with respect to just your CCP Transactions and the related assets. Similarly, it should be easier to achieve porting in respect of one of your client's positions if such client chooses a Gross Omnibus Indirect Client Account (described in more detail in Part One B), because it allows one or more of your clients in the same Gross Omnibus Indirect Client Account to port independently of your other clients in the same Gross Omnibus Indirect Client Account, and because, unlike a Basic Omnibus Indirect Client Account, the Gross Omnibus Indirect Client Account at the CCP level relates only to your clients (and not to clients of our other clients).

What happens if porting is not achieved?

Each CCP is permitted to specify a period of time after which, if it has not been able to achieve porting, it will be permitted to actively manage its risks in relation to the CCP Transactions. This period of time will vary across CCPs. If you want to port your CCP Transactions (where possible), you will need to notify the CCP and show that you can satisfy the other conditions within this period.

Otherwise, the CCP will terminate the CCP Transactions and perform a close-out calculation in respect of them in accordance with the CCP rules. If there is an amount owed by the CCP in respect of the CCP Transactions, to the extent that the CCP knows your identity and how much of that amount relates to you and, where applicable, your clients, the CCP may pay such amount directly to you. If the CCP does not know your identity and/or does not know how much of the amount relates to you and, where applicable, your clients, the CCP will pay it to us (or our insolvency practitioner) for the account of our clients.

It is more likely that a CCP will be able to pay any such amount directly to you with respect to an Individual Client Account or a Gross Omnibus Indirect Client Account (described in more detail in Part One B). This is because your identity will typically be disclosed to the CCP in these cases.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

If the CCP terminates the CCP Transactions, then the Client Transactions between us and the Indirect Client Transactions between you and your clients are also likely to terminate. The termination calculations in respect of those Client Transactions and Indirect Client Transactions will be performed in accordance with the client clearing agreement between us and, where applicable, the indirect client clearing agreement between you and your clients, respectively. Such calculations will likely mirror those performed by the CCP in respect of the CCP Transactions. If you are due a payment from us as a result of the close-out calculations in respect of our Client Transactions, the amount due from us to you will be reduced by any amount that you receive (or are deemed to receive) directly from the CCP.

Please see Part One C for a consideration of the main insolvency considerations.

Part One B: Account types and the factors to consider

The types of accounts available

Unless specifically stated otherwise, reference to accounts means the accounts in the books and records of each CCP. The CCP uses these accounts to record the CCP Transactions that we enter into in connection with the clearing of your related Client Transactions and any related Indirect Client Transactions and the assets that we provide to the CCP in respect of such CCP Transactions.⁹ Additionally, we will open accounts in our books and records to record the Client Transactions we enter into with you, some of which may relate to your Indirect Client Transactions (depending on the account type), and the assets that you provide to us in respect of such Client Transactions.

There are two basic types of client account available at the CCP level – Omnibus Client Accounts and Individual Client Accounts. Some of the CCPs then offer different levels of segregation within those as described in Part Two of this document. Additionally, there are two basic types of indirect client accounts available at the CCP level – the Basic Omnibus Indirect Client Accounts and Gross Omnibus Indirect Client Accounts.

As noted, we refer you to the CCP disclosures which CCPs are required to prepare and which set out the treatment of margin and collateral at CCP level. We have also included below a general overview of the most common segregation approaches taken by CCPs, but note that for any particular CCP, there is no substitute for that CCP's own disclosure.

At the clearing broker level, we then open and maintain accounts corresponding to the relevant direct and indirect clearing accounts at the CCP level as described in more detail below.

Omnibus Client Account¹⁰

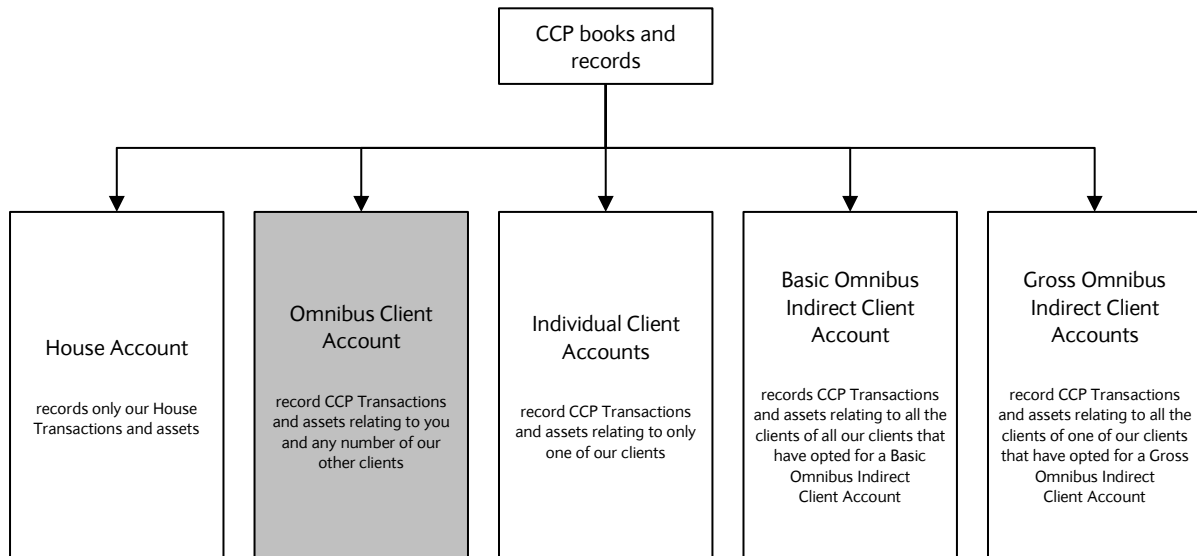

Under this account type, at the level of the CCP, the CCP Transactions and assets that relate to them in the CCP's accounts are segregated from:

- Any CCP Transactions we are clearing for our own account (our **House Transactions**) (including corresponding assets in the CCP's accounts) at the CCP;
- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to any of our other clients that have opted for an Individual Client Account; and
- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to your clients and any clients of our other clients (regardless of whether they have opted for a Basic Omnibus Indirect Client Account or a Gross Omnibus Indirect Client Account)

However, the CCP Transactions and assets that relate to you will be commingled with the CCP Transactions and assets relating to any of our other clients that are recorded in the same Omnibus Client Account.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Can CCP Transactions and related collateral be netted with our House Transactions and assets?	No
Can CCP Transactions and related assets be netted with those relating to our other clients?	Yes (provided the other clients' CCP Transactions and assets are recorded in the same Omnibus Client Account)
Can CCP Transactions and related collateral be netted with those relating to your clients?	No ¹¹
Can CCP Transactions and related collateral be netted with those relating to clients of our other clients?	No

The CCP will agree not to net the CCP Transactions relating to you with our House Transactions or any CCP Transactions not recorded in the same Omnibus Client Account, nor use the assets relating to such CCP Transactions with respect to any House Transaction or CCP Transaction recorded in any other account.

However, both we and the CCP may net the CCP Transactions that are recorded in the same Omnibus Client Account. The assets provided in relation to the CCP Transactions recorded in the same Omnibus Client Account can be used in relation to any CCP Transaction (whether it relates to you or to any of our other clients) credited to that Omnibus Client Account.

Please see Part Two for an overview of the risks you may face if you choose an Omnibus Client Account and for details of the different levels of segregation that may be available at different CCPs.

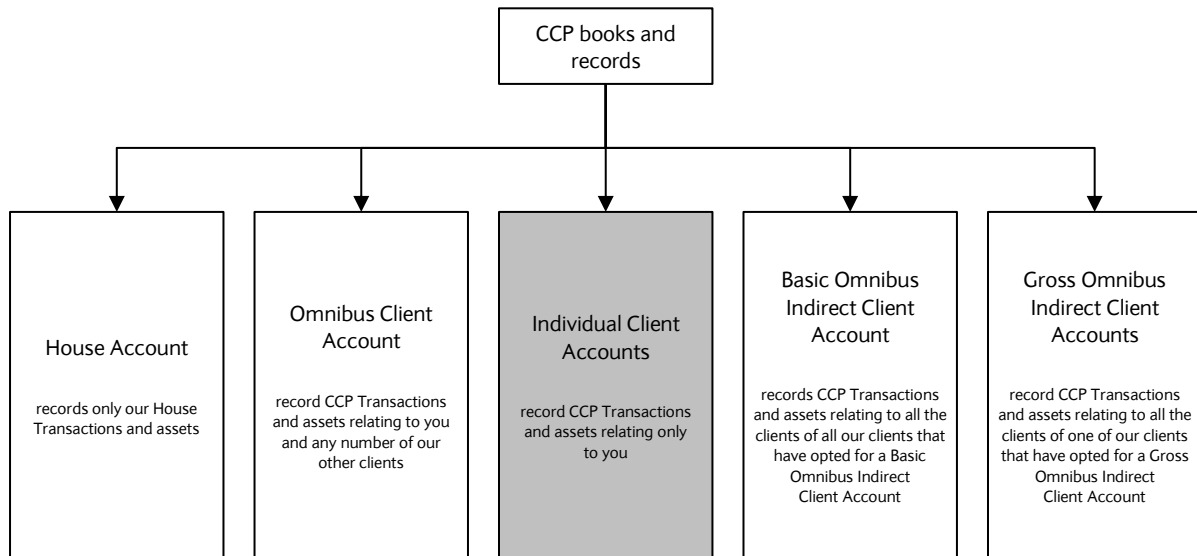

Individual Client Account¹²

Under this account type, at the level of the CCP, the CCP Transactions and assets that relate to you in the CCP's accounts are segregated from:

- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to our House Transactions;
- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to any of our other clients (regardless of whether they have opted for an Individual Client Account or an Omnibus Client Account); and
- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to your clients and any clients of our other clients (regardless of whether they have opted for a Basic Omnibus Indirect Client Account or a Gross Omnibus Indirect Client Account)

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Can CCP Transactions and related collateral be netted with our House Transactions and assets?	No
Can CCP Transactions and related assets be netted with those relating to our other clients?	No
Can CCP Transactions and related collateral be netted with those relating to your clients?	No ¹³
Can CCP Transactions and related collateral be netted with those relating to clients of our other clients?	No

The CCP will agree not to net the CCP Transactions relating to you with our House Transactions, nor use the assets relating to such CCP Transactions in relation to our House Transactions.

Further, and in contrast to an Omnibus Client Account, the CCP will agree not to net the CCP Transactions relating to you that are recorded to an Individual Client Account with any CCP Transaction recorded to *any* other account, nor use the assets related to such CCP Transactions in relation to the CCP Transactions recorded in any other account.

Please see Part Two for an overview of the risks you may face if you choose an Individual Client Account and additional features of Individual Client Accounts that may be available at different CCPs.

Basic Omnibus Indirect Client Account¹⁴

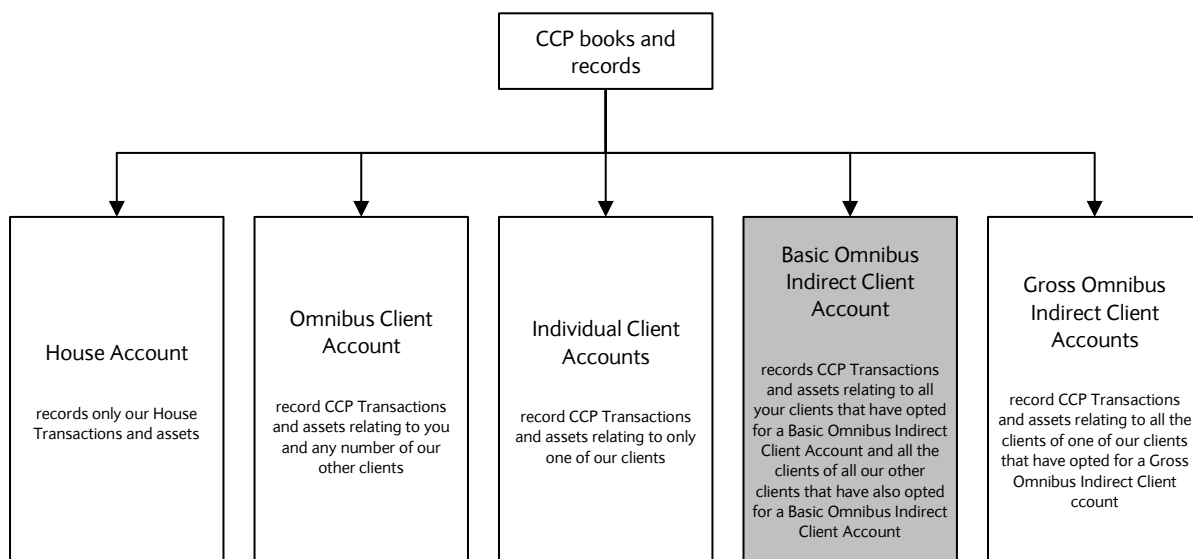

Under this account type, at the level of the CCP, the CCP Transactions (including the corresponding assets in the CCP's accounts) relating to your clients that have opted for a Basic Omnibus Indirect Client Account are segregated from:

- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to our House Transactions;
- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to your own account or that of one of our other clients (regardless of whether you/they have opted for an Individual Client Account or Omnibus Client Account); and
- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to any of your clients or any clients of our other clients that have opted for a Gross Omnibus Indirect Client Account

However, the CCP Transactions (including corresponding assets in the CCP's accounts) relating to your clients that have opted for a Basic Omnibus Indirect Client Account will be commingled with the CCP Transactions (including corresponding assets in the CCP's accounts) relating to any of your other clients and any clients of our other clients that have opted for a Basic Omnibus Indirect Client Account and which are recorded in the same Basic Omnibus Indirect Client Account.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Can CCP Transactions and related collateral be netted with our House Transactions and assets?	No
Can CCP Transactions and related assets be netted with those relating to you or our other clients?	No
Can CCP Transactions and related collateral be netted with those relating to your other clients?	Yes (provided your other clients' CCP Transactions and assets are recorded in the same Basic Omnibus Indirect Client Account)
Can CCP Transactions and related collateral be netted with those relating to clients of our other clients?	Yes (provided our other clients' clients' CCP Transactions and assets are recorded in the same Basic Omnibus Indirect Client Account)

The CCP will agree not to net the CCP Transactions relating to your indirect clients that have opted for a Basic Omnibus Indirect Client Account with our House Transactions or any CCP Transactions not recorded in the same Basic Omnibus Indirect Client Account, nor use the assets relating to such CCP Transactions with respect to any House Transaction or CCP Transaction recorded in any other account.

However, both we and the CCP may net the CCP Transactions that are recorded in the same Basic Omnibus Indirect Client Account. The assets provided in relation to the CCP Transactions recorded in the same Basic Omnibus Indirect Client Account can be used in relation to any CCP Transaction (whether it relates to your indirect clients or indirect clients of any of our other clients) credited to that Basic Omnibus Indirect Client Account.

Please see Part Two for an overview of the risks in relation to a Basic Omnibus Indirect Client Account and for details of the different levels of segregation that may be available at different CCPs.

Additionally, at the level of the clearing broker, we then open and maintain accounts corresponding to the Basic Omnibus Indirect Client Accounts at the CCP level. Under this account type, the Client Transactions (including the corresponding assets in our accounts) relating to your clients that have opted for a Basic Omnibus Indirect Client Account are segregated from:

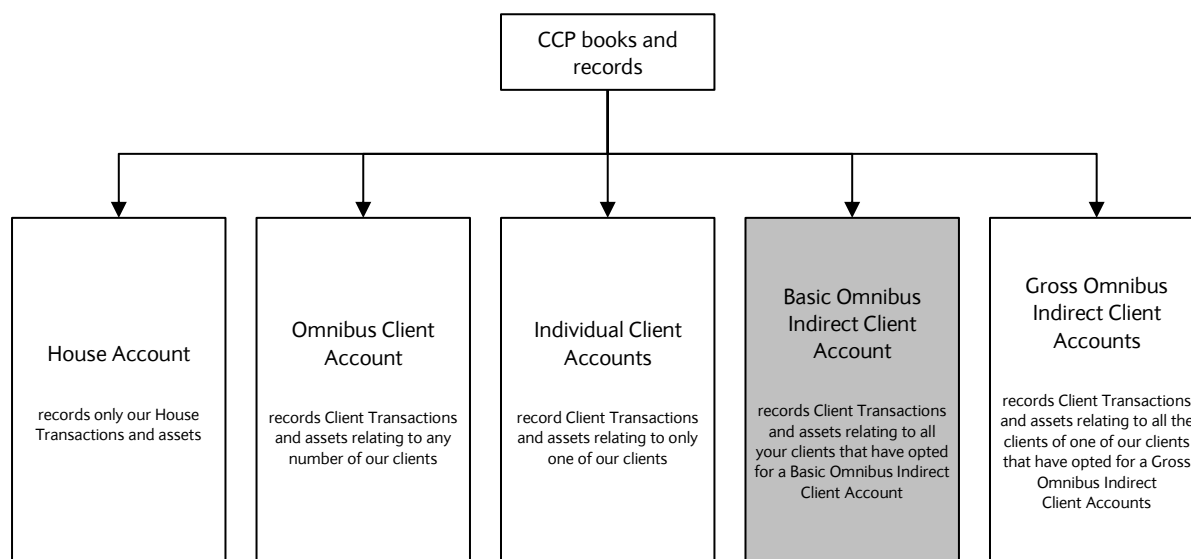

- Our House Transactions;
- Any Client Transactions (including corresponding assets in our accounts) relating to your own account or that of one of our other clients (regardless of whether you/they have opted for an Indirect Client Account or Omnibus Client Account);

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

- Any Client Transactions (including corresponding assets in our accounts) relating to any clients of our other clients that have also opted for a Basic Omnibus Indirect Client Account and which are recorded in a different Basic Omnibus Indirect Client Account; and
- Any Client Transactions (including corresponding assets our accounts) relating to any of your clients or any clients of our other clients that have opted for a Gross Omnibus Indirect Client Account

However, the Client Transactions (including corresponding assets in our accounts) relating to your clients that have opted for a Basic Omnibus Indirect Client Account will be commingled with the Client Transactions (including corresponding assets in our accounts) relating to any of your other clients that have also opted for a Basic Omnibus Indirect Client Account and which are recorded in the same Basic Omnibus Indirect Client Account.

Can Client Transactions and related collateral be netted with our House Transactions and assets?	No
Can Client Transactions and related assets be netted with those relating to you or our other clients?	No ¹⁵
Can Client Transactions and related collateral be netted with those relating to your other clients?	Yes (provided your other clients' Client Transactions and assets are recorded in the same Basic Omnibus Indirect Client Account)
Can Client Transactions and related collateral be netted with those relating to clients of our other clients?	No

We will not net the Client Transactions relating to your clients that have opted for a Basic Omnibus Indirect Client Account with our House Transactions or any Client Transactions not recorded in the same Basic Omnibus Indirect Client Account, nor use the assets relating to such Client Transactions with respect to any House Transaction or Client Transaction recorded in any other account.

However, we may net the Client Transactions that are recorded in the same Basic Omnibus Indirect Client Account. The assets provided in relation to the Client Transaction credited to that Basic Omnibus Indirect Client Account can be used in relation to any Client Transaction credited to that Basic Omnibus Indirect Client Account.

Gross Omnibus Indirect Client Account¹⁶

Under this account type, at the level of the CCP, the CCP Transactions (including the corresponding assets in the CCP's accounts) relating to your clients that have opted for a Gross Omnibus Indirect Client Account are segregated from:

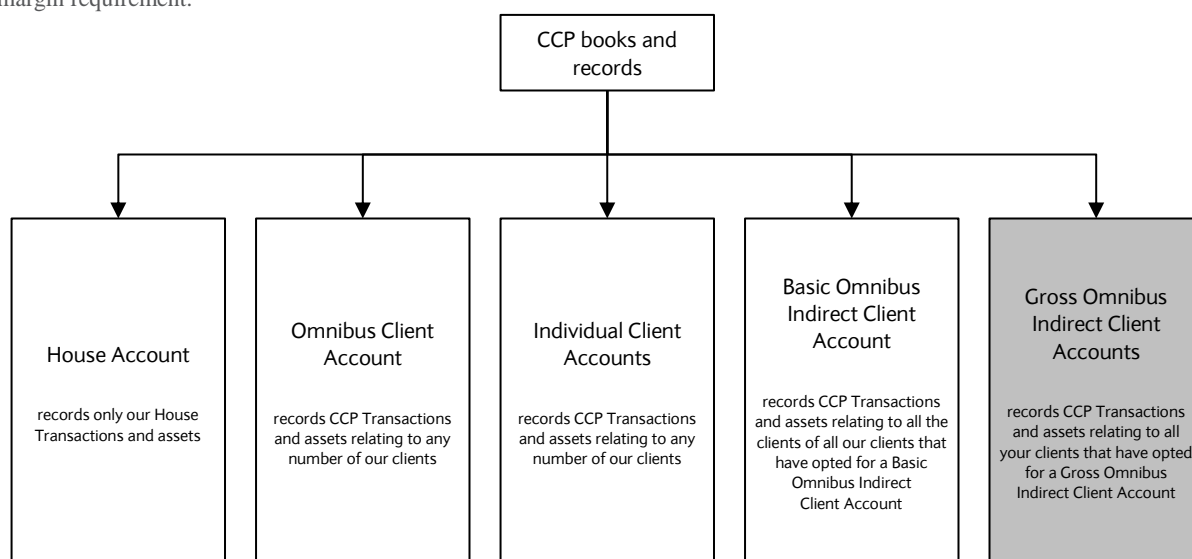

- Any CCP Transactions (including corresponding assets in the CCP's accounts) relating to our House Transactions;

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

- Any CCP Transactions (including corresponding assets in the CCP’s accounts) relating to your own account or that of one of our other clients (regardless of whether you/they have opted for an Individual Client Account or Omnibus Client Account);
- Any CCP Transactions (including corresponding assets in the CCP’s accounts) relating to any of your clients or any clients of our other clients that have opted for a Basic Omnibus Indirect Client Account; and
- Any CCP Transactions (including corresponding assets in the CCP’s accounts) relating to any clients of our other clients that have also opted for a Gross Omnibus Indirect Client Account and which are recorded in a different Gross Omnibus Indirect Client Account

However, the CCP Transactions (including corresponding assets in the CCP’s accounts) relating to your indirect clients that have opted for a Gross Omnibus Indirect Client Account will be commingled with the CCP Transactions (including corresponding assets in the CCP’s accounts) relating to any of your other clients that have opted for a Gross Omnibus Indirect Client Account and which are recorded in the same Gross Omnibus Indirect Client Account. Within the Gross Omnibus Indirect Client Account, the CCP will keep separate records of the positions of each of your clients that has opted for a Gross Omnibus Indirect Client Account. The CCP will also calculate the margining requirement separately for each of your clients that has opted for a Gross Omnibus Indirect Client Account and collect the aggregate of each such margin requirement.

Can CCP Transactions and related collateral be netted with our House Transactions and assets?	No
Can CCP Transactions and related assets be netted with those relating to you or our other clients?	No
Can CCP Transactions and related collateral be netted with those relating to your other clients?	The CCP Transactions relating to any one of your clients that has opted for a Gross Omnibus Indirect Client Account will not be netted with the CCP Transactions relating to any of your other clients. However, the collateral of any one of your clients that has opted for a Gross Omnibus Indirect Client Account may be used to cover CCP Transactions of your other clients to the extent it is recorded in the same Gross Omnibus Indirect Client Account.
Can CCP Transactions and related collateral be netted with those relating to clients of our other clients?	No

The CCP will agree not to net the CCP Transactions relating to your clients that have opted for a Gross Omnibus Indirect Client Account with our House Transactions, your CCP Transactions, the CCP Transactions relating to our other clients or any CCP Transactions relating to your other clients (regardless of whether they are recorded in the same Gross Omnibus Indirect Client Account).

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

The CCP will also agree not to use the assets relating to the CCP Transactions relating to your clients that have opted for a Gross Omnibus Indirect Client Account with respect to any House Transactions, your CCP Transactions, the CCP Transactions relating to our other clients or any CCP Transactions relating to your other clients provided that they are not recorded in the same Gross Omnibus Indirect Client Account. However, the assets provided in relation to the CCP Transactions relating to one of your clients that have opted for a Gross Omnibus Indirect Client Account may be used by both the CCP and us in relation to any CCP Transaction relating to your other clients that have also opted for a Gross Omnibus Indirect Client Account.

Please see Part Two for an overview of the risks in relation to a Gross Omnibus Indirect Client Account and for details of the different levels of segregation that may be available at different CCPs.

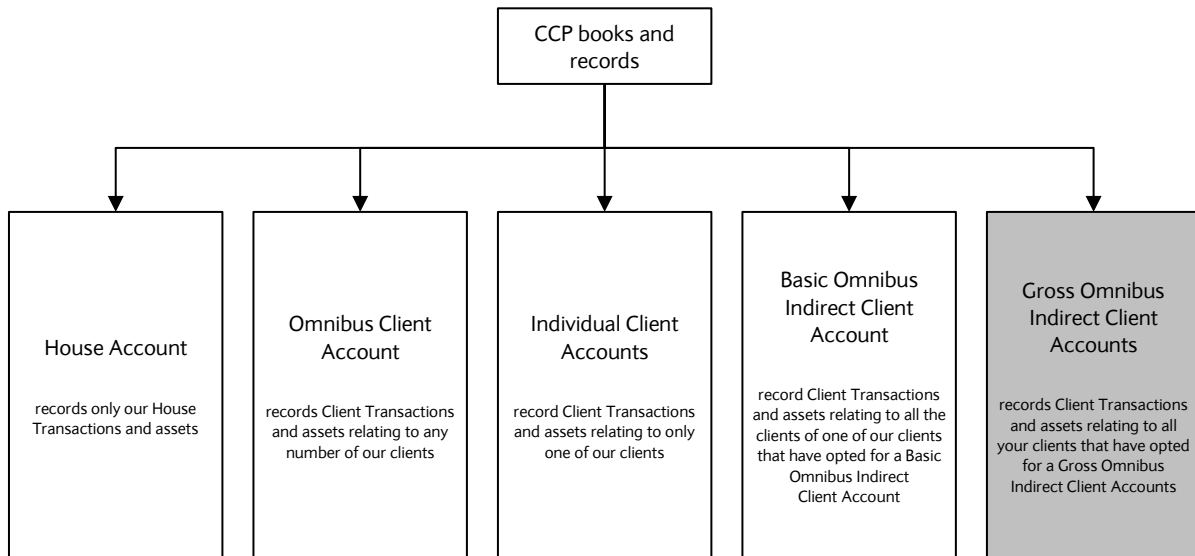

Additionally, at the level of the clearing broker, we then open and maintain accounts corresponding to the Gross Omnibus Indirect Client Accounts at the CCP level. Under this account type, the Client Transactions (including the corresponding assets in our accounts) relating to your clients that have opted for a Gross Omnibus Indirect Client Account are segregated from:

- Our House Transactions;
- Any Client Transactions (including corresponding assets in our accounts) relating to your own account or that of one of our other clients (regardless of whether you/they have opted for an Individual Client Account or Omnibus Client Account);
- Any Client Transactions (including corresponding assets in our accounts) relating to any of your clients or any clients of our other clients that have opted for a Basic Omnibus Indirect Client Account; and
- Any Client Transactions (including corresponding assets our accounts) relating to any clients of our other clients that have also opted for a Gross Omnibus Indirect Client Account and which are recorded in a different Gross Omnibus Indirect Client Account

However, the Client Transactions (including corresponding assets in our accounts) relating to your clients that have opted for a Gross Omnibus Indirect Client Account will be commingled with the Client Transactions (including corresponding assets in our accounts) relating to any of your other clients that have also opted for a Gross Omnibus Indirect Client Account and which are recorded in the same Gross Omnibus Indirect Client Account.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Can Client Transactions and related collateral be netted with our House Transactions and assets?	No
Can Client Transactions and related assets be netted with those relating to you or our other clients?	No ¹⁷
Can Client Transactions and related collateral be netted with those relating to your other clients?	The Client Transactions relating to any one of your clients that has opted for a Gross Omnibus Indirect Client Account will not be netted with the Client Transactions relating to any of your other clients. However, the collateral of any one of your clients that has opted for a Gross Omnibus Indirect Client Account may be used to cover Client Transactions of your other clients to the extent it is recorded in the same Gross Omnibus Indirect Client Account
Can Client Transactions and related collateral be netted with those relating to clients of our other clients?	No

We will not net the Client Transactions relating to your clients that have opted for a Gross Omnibus Indirect Client Account with our House Transactions, your Client Transactions, the Client Transactions relating to our other clients or any Client Transactions relating to your other clients (regardless of whether they are recorded in the same Gross Omnibus Indirect Client Account).

Neither will we use the assets relating to the Client Transactions relating to your clients that have opted for a Gross Omnibus Indirect Client Account with respect to any House Transactions, your Client Transactions, the Client Transactions relating to our other clients or any Client Transactions relating to your other clients provided that they are not recorded in the same Gross Omnibus Indirect Client Account. However, we may use the assets provided in relation to the Client Transactions relating to one of your clients that have opted for a Gross Omnibus Indirect Client Account in relation to any Client Transaction relating to your other clients that have also opted for a Gross Omnibus Indirect Client Account.

Affiliates

Except for Long Chain Arrangements, we treat our affiliates in the same way as clients when complying with EMIR and the Indirect Clearing RTS. This means that affiliates also have a choice between types of account. An affiliate may be part of the same omnibus account as other clients.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Other factors that may impact on the level of protection you receive in respect of assets that you provide to us as margin for Client Transactions

There are a number of factors that, together, determine the level of protection you will receive in respect of assets that you provide to us as margin for Client Transactions:

- Whether you choose an Omnibus Client Account or an Individual Client Account and whether your clients choose a Basic Omnibus Indirect Client Account or a Gross Omnibus Indirect Client Account (as discussed under “*The types of accounts available*” above);
- Whether, if you choose an Omnibus Client Account, you would want a gross or net account;
- In each case, whether such assets are transferred by way of title transfer or security interest;
- Whether or not cash that you transfer to us is treated as client money in accordance with the FCA client money rules;
- Whether we call any excess margin from you or you pay excess margin to us;
- Whether you will get back the same type of asset as you provided as margin; and
- The bankruptcy and other laws that govern us and the CCP

The rest of Part One B sets out further details for each of these variables and their implications under English Law.

Would you prefer a gross or net Omnibus Client Account?

Prior to the Indirect Clearing RTS coming into force, the CCPs are only required to offer one type of Omnibus Client Account (and one type of Individual Client Account) with regard to direct clearing under EMIR, but some of them have developed a range of accounts within these two types with features that provide different degrees of segregation. These are discussed in more detail in Part Two. There are two main levels of segregation within Omnibus Client Accounts:

- Net is where the margin called by the CCP in respect of the CCP Transactions is called on the basis of the net CCP Transactions recorded in the Omnibus Client Account
- Gross is where the margin called by the CCP Transactions is called on the basis of the gross CCP Transactions recorded in the Omnibus Client Account

These two different versions of the Omnibus Client Account are reflected in the two indirect client accounts required under the Indirect Clearing RTS, which envisage one gross omnibus account in the form of the Gross Omnibus Indirect Client Account and one omnibus account that may be net in the form of the Basic Omnibus Indirect Client Account.

It may be easier to port CCP Transactions and their related assets, both in business as usual and default circumstances, with regard to a gross Omnibus Client Account or Gross Omnibus Indirect Client Account than a net Omnibus Client Account or Basic Omnibus Indirect Client Account. This is because the CCP is more likely to have sufficient assets to facilitate the porting of the CCP Transactions that relate to you or, where applicable, your clients and those that relate to another client or, where applicable, their clients separately if it has called the margin on a gross basis. That said, different CCPs’ accounts have been designed in different ways and so you should consider the CCP’s information about the specific accounts to understand the exact differences. Please see Part Two for more details on this.

Will you provide cash or non-cash assets as margin for the Client Transactions?

As noted under “*The “principal-to-principal” clearing model*” in Part One A, as a clearing broker of the CCP, we are required to transfer assets to the CCP in respect of the CCP Transactions related to your Client Transactions and any Indirect Client Transactions. CCPs only accept certain types of liquid cash and non-cash assets as margin.

As is market practice, we will decide what types of assets to accept from you as margin for your Client Transactions. What we will accept from you as margin for the Client Transactions will not necessarily be the same type of assets that the CCPs will accept from us for the CCP Transactions, in which case we may provide you with a collateral transformation service, under which we transform the assets you provide to those which we can pass onto the CCP.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Do you provide assets to us on a title transfer or a security interest basis?

Title Transfer

Typically Barclays client clearing agreements provide for the transfer of assets by way of title transfer. Consequently, when you transfer assets (**Transferred Assets**) to us, we become the *full owner* of such assets and you lose all rights in such assets. We will record in our books and records that we have received such Transferred Assets from you with respect to the applicable Client Transaction. We will be obliged to deliver to you equivalent assets to such Transferred Assets (**Equivalent Assets**) in the circumstances set out in the client clearing agreement.

We may either transfer such Transferred Assets on to the CCP with respect to the CCP Transaction related to the Client Transaction or any Indirect Client Transaction, or we may transfer other assets to the CCP with respect to such CCP Transaction.

You bear our credit risk with respect to our obligation to deliver Equivalent Assets to you. This means that if we were to fail, unless we are declared to be in default by the CCP, you will have no right of recourse to the CCP or to any assets that we transfer to the CCP and you will instead have a claim against our estate for a return of the assets along with all our other general creditors. Even if we are declared to be in default by the CCP, the extent of your rights in relation to the CCP, if any, will depend on the particular CCP.

Security Interest

Where the client clearing agreement provides for the transfer of assets by way of security interest, when you transfer assets to us, you *retain* full beneficial ownership of such assets. Such assets are transferred to us on the basis that the assets still belong to you, but you have granted us a security interest with respect to such assets.

We may enforce that security interest if you default in your obligations to us. Only at the point of such enforcement would title in such assets or their liquidation value transfer to us. We will record in our books and records that we have received such assets from you with respect to the applicable Client Transaction.

What is the impact if we treat cash you transfer to us as client money in accordance with the FCA client money rules?

This question is separate to the question of what level of segregation you want and results from the FCA's client money regime rather than EMIR or the Indirect Clearing RTS. As set out in the question, "*Do you provide assets to us on a title transfer or a security interest basis?*", where specified in the relevant client clearing agreement, we may accept cash margin from you on a title transfer basis. Otherwise, because Barclays is as CRD credit institution (as such term is defined in the FCA client money rules), it will hold your money as banker and not as trustee which means that cash will not be held in accordance with the client money rules and not subject to the statutory trust provided for under the FCA client money rules. This means that Barclays will not segregate such cash from its own in accordance with the client money rules and will not be liable to account to you for any profits made by its use as banker of such cash.

As set out above, you bear our credit risk with respect to our obligation to repay cash deposited with us as collateral. This means that if we were to fail, unless we are declared to be in default by the CCP, you will have no right of recourse to the CCP or to any cash that we transfer to the CCP and you will instead have a claim against our estate for a return of the cash along with all our other general creditors. Even if we are declared to be in default by the CCP, the extent of your rights in relation to the CCP, if any, will depend on the particular CCP.

How will any excess margin we call from you be treated?¹⁸

We are required to treat excess margin in a particular way in relation to an Individual Client Account. Excess margin is any amount of assets we require from you or you provide to us in respect of a Client Transaction that is over and above the amount of assets the CCP requires from us in respect of the related CCP Transaction.

If you choose an Individual Client Account we are required to pass all excess margin on to a CCP. If you provide us with assets which are not related to your individually segregated clearing activities at a particular CCP and such assets are not dedicated to cover your current positions with that CCP, then we do not need to post such assets on to that CCP. Also, if the excess margin you provide to us is not in the form of assets which are eligible to be posted to the CCP (in accordance with the CCP's rules), unless we agree otherwise, we have no obligation to transform such assets into assets that would be eligible to be posted to the CCP. The details of this will be set out in the client clearing agreement between you and us.

If you provide us with collateral in the form of a bank guarantee in our favour, we are not required to post on to the CCP an amount of assets equal to the value of the portion of the bank guarantee which exceeds the amount of margin we have called from you in respect of the relevant Client Transaction(s).

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

In relation to an Omnibus Client Account, a Basic Omnibus Indirect Client or a Gross Omnibus Indirect Client Account, we are not required to pass any excess margin on to the CCP. As we hold excess margin on a title transfer basis or as banker, you take credit risk on us in respect of it.

Will you get back the same type of asset as you originally provided to us as margin for a Client Transaction?

In a business as usual situation, whether we will deliver the same type of asset to you that you originally provided to us will be governed by the client clearing agreement between us.

In the event of our default, if you are due a payment, you may not receive back the same type of asset that you originally provided to us. This is because the CCP is likely to have wide discretion to liquidate and value assets and make payments in various forms, and also because the CCP may not know what form of asset you originally provided to us as margin for the Client Transaction and as a result of any asset transformation services we may provide. This risk is present regardless of what type of client account you select.

Please see Part One C for a consideration of the main insolvency considerations.

Part One C: What are the main insolvency considerations?

General insolvency risks

If we enter into insolvency proceedings, you may not receive all of your assets back or retain the benefit of your positions and there are likely to be time delays and costs (e.g. funding costs and legal fees) connected with recovering those assets. These risks arise in relation to Individual Client Accounts, Omnibus Client Accounts, Basic Omnibus Indirect Client Accounts and Gross Omnibus Indirect Client Accounts because:

- Except for CCP-specific porting solutions described earlier and the comments below under “*Margin rights*”, you will not have any rights directly against the CCP; and you will only have contractual claims against us (i.e. rather than being able to recover particular assets as owner);
- Our insolvency proceedings are most likely to be insolvency proceedings opened and controlled by the Prudential Regulation Authority, the Bank of England and the UK Treasury, under the UK Special Resolution Regime (“**SRR**”) introduced as a result of the Banking Act 2009. This regime provides the PRA, the Bank of England and the UK Treasury with special tools to resolve failing UK banks and protect depositors. Under the SRR, subject to a few exceptions, you will not be able to take any action against us without court or insolvency administrator consent (which can be a time consuming process with an uncertain outcome); and
- Any stage of a cleared transaction (e.g. Indirect Client Transactions, Client Transactions, CCP Transactions and porting) may be challenged by our insolvency official if, broadly speaking, it was not on arm’s length terms. If successful, the court has broad powers to unwind or vary all of those stages

Please also note that:

- Insolvency law may override the terms of contractual agreements, so you should consider the legal framework as well as the terms of disclosures and legal agreements; and
- A large part of your protection comes from CCP arrangements and the legal regimes surrounding them. Therefore, you should understand these in order to evaluate the level of protection that you have on our default. It is important that you review the relevant disclosures by the CCP in this respect

Insolvency of CCPs and others

Except as set out in this section “*Insolvency of CCPs and others*”, this disclosure deals only with our insolvency. You may also not receive all of your assets back or retain the benefit of your positions if other parties in the clearing structure default – e.g. the CCP itself, a custodian or a settlement agent or other clearing broker used by us (where we are not a member of the CCP ourselves).

In relation to CCP insolvency, broadly speaking our (and therefore your) rights will depend on the law of the country in which the CCP is incorporated (i.e. not necessarily English law) and the specific protections that the CCP has put in place. You should review the relevant CCP disclosures carefully in this respect and take legal advice to fully understand the risks in this scenario.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

In addition, please note the following:

- We expect that an insolvency official will be appointed to manage the CCP. Our rights against the CCP will depend on the relevant insolvency law and/or that official;
- It will be difficult or impossible to port CCP Transactions and related margin, so it would be reasonable to expect that they will be terminated at CCP level. The steps, timing, level of control and risks relating to that process will depend on the CCP, its rules and the relevant insolvency law. However, it is likely that there will be material delay and uncertainty around when and how much assets or cash we will receive back from the CCP. Subject to the bullet points below, it is likely that we will receive back only a percentage of assets available depending on the overall assets and liabilities of the CCP;
- It is unlikely that you will have a direct claim against the CCP because of the principal-to-principal model described in Part One A;
- Under the client clearing agreement, Client Transactions will terminate at the same time as the matching CCP Transactions unless the relevant CCP rules provide otherwise. This will result in a net sum owing between you and us. However, your claims against us are limited recourse so that you will only receive amounts from us in relation to Client Transactions if we receive equivalent amounts from the CCP in relation to relevant CCP Transactions;
- If recovery of margin in this scenario is important, then you should explore “bankruptcy remote” or “physical segregation” structures offered by some CCPs. These tend to be offered only in relation to Individual Client Accounts and generally involve either:
- You or us retaining assets in your/our name and only giving a security interest over that margin to the CCP (i.e. it allows the CCP to apply margin if we default but should keep the assets out of the CCP’s insolvency if it defaults); or
- The CCP holding the assets in a blocked or controlled margin account and giving a security interest (or similar legal right) over the margin back to us, to you and/or to a trustee on our behalf

It is beyond the scope of this disclosure to analyse such options but your due diligence on them should include analysis of matters such as whether other creditors of the type described in “Porting – preferential creditors” below will have priority claims to margin; whether margin or positions on one account could be applied against margin or positions on another account (notwithstanding the contractual agreement in the CCP’s rules); the likely time needed to recover margin; whether the margin will be recovered as assets or cash equivalent; and any likely challenges to the legal effectiveness of the structure (especially as a result of the CCP’s insolvency).

Margin rights

If you provide assets to us by way of security interest, then you should have a legal right to recover the balance of those assets (after settling your obligations to us) ahead of other creditors. However, please note that, depending on the exact set up of our security arrangements, it may be that some preferential creditors will still have a prior claim to your assets (please see “Porting – preferential creditors” below which deals with a similar point).

If you have retained the assets (e.g. in a custody account over which you have given us a security interest) then you will have the best chance of recovering them. If you have transferred the assets to our name by way of security (e.g. by giving us a mortgage over the assets) then you bear more risk if there is a shortfall in any of the assets that we are holding. Generally speaking, your risk of loss will be highest in relation to non-client money cash margin; lower in relation to securities held by us in an omnibus account; and lower still if securities are segregated in our books and records and at custody level identifying you as the client.

The actual result will be highly fact specific and will depend on, amongst other things, the exact terms of our legal arrangements; how we have operated accounts; and claims that other intermediaries (e.g. custodians and settlement systems) have to those assets.

We do not expect the above position to change materially if you have an Individual Client Account, Omnibus Client Account, Basic Omnibus Indirect Client Account or Gross Omnibus Indirect Client Account.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Companies Act 1989, Part VII

Part VII applies because we are an English company (generally speaking, it does not apply to non-English companies) and gives specific protection against some of the legal risks that arise on our insolvency. Generally speaking, if we are declared in default by a CCP that has the benefit of Part VII protection, then our insolvency official cannot challenge actions taken by the CCP against us under its default rules:

- To settle our CCP Transactions or to transfer those CCP Transactions and related assets to a back-up clearing broker; or
- To transfer our Client Transactions with you and related assets to the same back-up clearing broker

This Part VII protection generally applies to actions taken by English CCPs that have been (re)authorised by the Bank of England. It can also protect actions taken by non-English CCPs that have been authorised or recognised by other competent authorities or ESMA (as applicable) provided that the non-English CCP's default provisions either meet certain requirements set out in the UK Recognition Requirements¹⁹ or the non-English CCP has applied for and the Bank has granted an order stating that Part VII will apply to transfers of assets and positions under that non-English CCP's default provisions.

In either case, Part VII focuses on protecting counterparties from our default. It is not clear that it would provide any wider protection – e.g. if the CCP itself became insolvent.

Please note that Part VII is a complex and unclear piece of legislation and this summary is not a substitute for detailed legal analysis – particularly of Part VII in the context of the relevant CCP's regulatory authorisations and default rules – with your professional advisors.

Please see below an outline of some specific insolvency risks and related Part VII commentary.

The protection is from insolvency law so will not necessarily help, for example, with the issue described under “Porting – preferential creditors” below because that relates, at least in part, to security law.

Close-out netting

If we default and the CCP cannot port the CCP Transactions and collateral (e.g. because a back-up clearing broker cannot be found or, ordinarily²⁰, because the relevant positions are in a Basic Omnibus Indirect Client Account) then we would expect it to terminate and net our CCP Transactions and apply related assets.

You and we would want this to work differently from normal bilateral close-out netting that would apply to all positions and assets between us and the CCP – e.g. assets on an Individual Client Account relating to you could be netted with our house or another client account at the CCP. There is a risk that this netting across accounts could happen automatically as a result of ordinary English insolvency law. However, to the extent that the CCP has Part VII protection, this should not occur.

A similar risk occurs between us and you in relation to Client Transactions.

It is most likely to materialise in a pre-porting period during which English law may automatically set off Client Transactions and collateral relating to one CCP with Client Transactions and collateral relating to another. This risk arises regardless of what you and we may provide for in our clearing documentation. Whilst the resulting termination amount should represent our net exposure to each other, it will make porting difficult or impossible.

It is unclear whether Part VII provides you protection in this case. However, there are certain industry-wide legal opinions that have been prepared on the effectiveness of close-out provisions in standard client clearing agreements. You should seek legal advice and/or access to such opinions for more information in this respect.

Please also note more generally that your freedom to close out Client Transactions is more limited under the client clearing agreement than in other arrangements that you may be used to. In particular, the main termination event under our client clearing agreement is that the relevant CCP has declared us to be in default under the CCP's rules. The intention is to match the treatment of CCP Transactions and Client Transactions as much as possible. However, this may mean that – unless the CCP declares a default under its rules – you cannot terminate Client Transactions for common reasons such as a payment or insolvency default on our part.

Porting – prohibition

As mentioned above, except in specific (e.g. physically segregated) structures, a CCP only owes us (not you) obligations in relation to CCP Transactions and related assets.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

As a result, when these contracts and assets are transferred to a back-up clearing broker, there is a risk of insolvency challenge because our rights have effectively been taken from us on or around the time of our insolvency. Applicable laws may not permit this and there is a risk that the courts may therefore not permit, or may unwind, any porting and related Client Transactions with your back-up clearing broker.

That said, we expect the risk of challenge to be low in relation to CCP Transactions and matching transfer of Client Transactions that are ported in accordance with the default rules of a CCP that has Part VII protection.

Porting – preferential creditors

As mentioned under “*What happens if we are declared to be in default by a CCP?*” in Part One A, a CCP’s porting structure may be based on or supported by a security interest. This can take different forms but generally involves us creating security over our rights against the CCP in relation to an Individual Client Account, Omnibus Client account or Gross Omnibus Indirect Client Account in your favour or in favour of another person (e.g. an independent trustee) to hold the security on your behalf. Broadly speaking, the security interest should support the argument that these assets are not part of our insolvency estate (i.e. are not to be shared with our other creditors).

However, depending on the exact structure, insolvency law gives certain statutory creditors priority over secured creditors. This means that some creditors may have a claim on client account assets ahead of you. Statutory creditors are likely to include, amongst others, our insolvency official (e.g. in respect of its costs and expenses), a relatively small amount of unsecured creditors, some employee salaries and pension contributions.

Mismatch of CCP/Client Transactions and assets

It could be that our net assets in relation to CCP Transactions do not match our net obligations to each other in relation to the matching Client Transactions. This can slow down or make porting impossible either operationally or legally.

For example, it may occur at CCP level as a result of Fellow Client Risk (see the explanation of this term in Part Two of this document) in an Omnibus Client Account or a Gross Omnibus Indirect Client Account, with the result that there are insufficient assets available for porting to satisfy our obligations to you in relation to the Client Transactions.

Alternatively, it could be that all of your Client Transactions with us are netted automatically as a result of English insolvency law (please see above under “*Close-out netting*”).

Banking Act 2009

The Banking Act applies because we are an English company that falls within its scope. As a result, in serious circumstances, we may be nationalised or we (or any of our assets and liabilities) may be transferred to a third party by a combination of the Treasury, Bank of England or FCA. In that case, your counterparty and/or your counterparty risk may change. It is unlikely that you will be able to stop such transfer or to enforce any early termination rights against us as a result of such transfer.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Part One D: The terms and conditions on which we offer services to you

A general description of the principal terms and conditions governing our relationship with our clients in respect of indirect clearing is set out below. The actual provisions of the clearing agreement that we enter into with any client are more detailed. The specific terms and conditions of the clearing agreement that we enter into with any client may also differ depending on our analysis of the risks that such client's trading and clearing activities may present.

What general terms and conditions apply when we offer indirect clearing?

Before providing indirect client services to you, we will generally require that you:

- satisfy our usual client onboarding and KYC criteria, including by providing us with such information that we may request.
- provide us with such information as we may reasonably require from time to time to enable us or any affiliate of ours to comply with any applicable regulation including the Indirect Clearing RTS.
- at all times satisfy the credit criteria applicable to our clients.
- be an authorised credit institution or investment firm or an entity established in a third country that would be considered to be a credit institution or investment firm if that entity were established in the European Union.
- be able to operationally support the selected account type in accordance with the requirements of the Indirect Clearing RTS and the clearing agreement with us
- enter into a legally binding clearing agreement with us or have in place an existing clearing agreement with us, in each case governed by English law with general provisions including but not limited to:
 - your capacity and authority
 - your agreement to comply with applicable law, regulation, exchange and CCP rules
 - your agreement to meet all margin calls with respect to client transactions and comply with trading limits
 - our rights to adjust trading limits and fees
 - our rights upon an event of default in respect of you, including rights to liquidate any client transactions and margin
 - limitation of our liability
- enter into additional legally binding provisions to such clearing agreement as are necessary/desirable to enable us and you to comply with our respective obligations under the Indirect Clearing RTS and rules of the relevant CCPs.
- enter into contractual documentation with your clients to facilitate compliance with the Indirect Clearing RTS.
- The applicable terms will depend on the laws of your jurisdiction and we may require an independent and reasoned legal opinion (at your expense) to confirm the enforceability of such arrangements.
- If you do not make an account election within a reasonable period of time as determined by us, you will be treated as if you have elected a Basic Omnibus Indirect Client Account.

Please note that any account election, including any deemed election of a Basic Omnibus Indirect Client Account, will take effect only upon notice by us to you that all relevant steps have been completed by you and us to implement such account.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Part Two: CCP client account structures²¹

As noted in Part One B, each CCP may offer at least one Omnibus Client Account and/or at least one Individual Client Account by changing some of the features. This Part Two contains an overview of the main levels of segregation within each account type of which we are aware that the CCPs offer with respect to direct clearing, and are likely to offer with indirect clearing, together with an overview of the main protections afforded by and the main legal implications of each.

The descriptions given in this Part Two are very high level and consider the typical features of these client account types and the minimum requirements for indirect client account types under the Indirect Clearing RTS, and the respective levels of segregation. However, the particular characteristics of the accounts will affect the exact levels of protection they offer and the legal implications so you must review the information provided by the CCPs to fully understand the risks of the specific account we maintain in relation to you at each CCP.

Each CCP is required to publish information about the client account structures it offers under EMIR and we have provided a link to the relevant part of the website of each CCP we use²². You may also need to seek professional advice to understand the differences in detail. However, we hope that the questions raised and factors described in both parts of this document will help you to know which questions to ask and to understand the impact of the answers you receive.

The descriptions of the client accounts have been prepared on the basis of publicly available disclosure documents made available by a selection of CCPs. We are not responsible for, and do not accept any liability whatsoever, for any content or omissions or inaccuracies contained in the information produced by any CCP. The descriptions of the indirect client accounts have been prepared on the basis of the minimum requirements in the Indirect Clearing RTS.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

The Annex seeks to compare the main account types and levels of segregation against the following risks:

Risks used to compare each account type and level of segregation	Explanation of risk
Transit Risk	Whether you are exposed to us at any point in the process of providing or receiving margin in respect of Client Transactions.
Fellow Client Risk	Whether assets provided to the CCP in respect of CCP Transactions related to you/your clients could be used to cover losses in CCP Transactions relating to another client/clients of another client.
Liquidation Risk	Whether, if the CCP Transactions and assets relating to them were to be ported, there is a risk that any non-cash assets would be liquidated into cash. If this were to happen, the value given to such assets by the CCP may differ from what you perceive to be the full value of the assets.
Haircut Risk	Whether the value of the assets that relate to CCP Transactions might be reduced or not increase by as much as you expect because the CCP applied a haircut that did not properly reflect the value of the asset.
Valuation Mutualisation Risk	Whether the value of the assets that relate to CCP Transactions could be reduced or not increase by as much as you expect because the assets posted in relation to other clients' CCP Transactions have decreased in value.
CCP Insolvency Risk	Whether you are exposed to the insolvency or other failure of the CCP.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Typical account characteristics

	Net Omnibus Client Account	Basic Omnibus Indirect Client Account	Gross Omnibus Client Account	Gross Omnibus Indirect Client Account	Individual Client Account
Who will the CCP Transactions recorded in the account relate to?	Net Omnibus Client Accounts record both assets and CCP Transactions that relate to you and the assets and CCP Transactions that relate to one or more of our other clients.	Basic Omnibus Indirect Client Accounts record both assets and CCP Transactions that relate to your clients that have opted for a Basic Omnibus Indirect Client Account and the assets and CCP Transactions that relate to the clients of our other clients that have opted for Basic Omnibus Indirect Client Account.	Gross Omnibus Client Accounts record assets and CCP Transactions that relate to you and the assets and CCP Transactions that relate to one or more of our other clients.	Gross Omnibus Indirect Client Accounts record assets and CCP Transactions that relate to your clients that have opted for a Gross Omnibus Indirect Client Account.	Only assets and CCP Transactions that relate to you should be recorded in an Individual Client Account.
Which losses can assets recorded in the account be used for?	Assets that are provided to the CCP as margin for a CCP Transaction recorded in a net Omnibus Client Account may be used to cover any losses in that account, whether such losses relate to the CCP Transactions relating to you or CCP Transactions relating to another client. ²³	Assets that are provided to the CCP as margin for a CCP Transaction recorded in a Basic Omnibus Indirect Client Account may be used to cover any losses in that account, whether such losses relate to the CCP Transactions relating to your clients or CCP Transactions relating to clients of our other clients.	Assets that are provided to the CCP as margin for the CCP Transactions recorded in a gross Omnibus Client Account may be used to cover any losses in that account, whether such losses relate to the CCP Transactions relating to you or CCP Transactions relating to another client. ²⁴	Assets that are provided to the CCP as margin for the CCP Transactions recorded in a Gross Omnibus Indirect Client Account may be used to cover any losses of any of your clients in that account.	Assets that are provided to the CCP as margin for CCP Transactions recorded in an Individual Client Account may only be used to cover losses in that account. ²⁵

	Net Omnibus Client Account	Basic Omnibus Indirect Client Account	Gross Omnibus Client Account	Gross Omnibus Indirect Client Account	Individual Client Account
Will the CCP know which CCP Transactions and types of assets relate to you/your clients?	The CCP may not know which CCP Transactions and assets recorded in a net Omnibus Client Account relate to you.	The CCP may not know which CCP Transactions and assets recorded in a Basic Omnibus Indirect Client Account relate to your individual clients.	The CCP may not know which CCP Transactions and assets recorded in a gross Omnibus Client Account relate to you.	The CCP will know which CCP Transactions relate to your clients, but may not know which types of assets relate to your clients.	Yes
Will the CCP record the assets provided by value only or will it identify the type of asset provided?	The CCP may identify in its records the type of asset provided as margin for the net Omnibus Client Account but will not be able to identify which type of assets relate to any client's CCP Transactions within that net Omnibus Client Account.	The CCP may identify in its records the type of asset provided as margin for the Basic Omnibus Indirect Client Account but will not be able to identify which type of assets relate to any indirect client's CCP Transactions within that Basic Omnibus Indirect Client Account.	The CCP may identify in its records the type of asset provided as margin for the gross Omnibus Client Account but is unlikely to be able to identify anything other than the value of the assets provided in respect of any client's CCP Transactions within that gross Omnibus Client Account.	The CCP may identify in its records the type of asset provided as margin for the Gross Omnibus Indirect Client Account but is unlikely to be able to identify anything other than the value of assets provided in respect of any of your client's CCP Transactions within that Gross Omnibus Indirect Client Account.	The CCP should identify in its records the type of asset provided as margin for an Individual Client Account.
Will the CCP Transactions recorded in the account be netted?	It is likely that the CCP Transactions recorded in the account will be netted. This means that CCP Transactions that relate to you may be netted with CCP Transactions that relate to our other clients whose CCP Transactions are recorded in the same net Omnibus Client Account.	It is likely that the CCP Transactions recorded in the account will be netted. This means that CCP Transactions that relate to your clients may be netted with CCP Transactions that relate to clients of our other clients whose CCP Transactions are recorded in the same Basic Omnibus Indirect Client Account.	CCP Transactions relating you in the account will be netted with other CCP Transactions relating to you. However, CCP Transactions relating to you should not be netted with CCP Transactions relating to any of our other clients recorded in the same Gross Omnibus Client Account.	CCP Transactions relating to any one of your clients in the account will be netted with other CCP Transactions relating to that same client. However, CCP Transactions relating to that client should not be netted with CCP Transactions relating to any of your other clients recorded in the same Gross Omnibus Indirect Client Account.	CCP Transactions are likely to be netted, but should not be netted against the CCP Transactions relating to any of our other clients.

Additional features that may be available for Individual Client Accounts

Some CCPs may offer additional Individual Client Accounts with special features that have been designed to mitigate certain of the risks identified under “*Typical account structures*” above. Below is a high level overview of some of the common additional features. The extent to which any risks are mitigated by these additional features, if at all, will depend on the structures used by an individual CCP. Again, therefore, you must review the information provided by the CCPs in order to evaluate the actual risks to you and you may need some professional advice. It is likely that these additional features will only be available to certain types of clients that meet each CCP’s requirements. These additional features are not required by EMIR. Accordingly, not all CCPs will offer them nor are we obliged to facilitate access to them.

Additional feature	High level overview of the additional feature	Which risks might this feature mitigate?
Extended porting period	<p>In the event of our default, this feature has been designed to allow more time for porting to be achieved.</p> <p>For a set period of time (decided by the CCP) following our default, the CCP Transactions and assets that relate to you will continue to be held in an account which the CCP will identify as directly relating to you. If you find a back-up clearing broker, these CCP Transactions and assets will then be transferred to one of their client accounts. If you do not find a back-up clearing broker, they will be terminated and the close-out value returned to you.</p> <p>Where the CCP treats the Client as an interim clearing broker, it is possible that the CCP may expect you to contribute to the default fund and may require additional margin, including variation margin, to be provided in respect of the CCP Transactions transferred to you.</p> <p>It is possible that you may have to set up such accounts as the CCP requires and have the ability to make payments directly to the CCP. The CCP may also have an additional list of requirements that you will have to satisfy to be able to use the extended porting period.</p>	This may make porting more likely to be achieved.
Separate custody account (in the name of the CCP) for the assets that have been provided as margin for positions relating to you	<p>The assets relating to your positions are held in a separate account (in the CCP’s name) at the CCP’s custodian from any other assets held for the CCP.</p> <p>It is likely that you will have to enter into additional legal documentation with us and the CCP.</p>	This may make porting more likely to be achieved.

Additional feature	High level overview of the additional feature	Which risks might this feature mitigate?
<p>Ability for you to keep assets required as margin for positions relating to you in a custody account in your name.</p>	<p>It is likely that you will have to enter into additional legal documentation and security arrangements with us and the CCP, and any custodian or settlement bank used under this structure.</p> <p>This additional feature may be restricted to certain types of non-cash assets.</p> <p>The custodian may be specified by or require the approval of the CCP.</p> <p>There will be additional operational requirements that you will need to meet in order to use this type of additional feature.</p>	<p>Transit Risk</p> <p>CCP Insolvency Risk</p> <p>This may make porting more likely to be achieved.</p>
<p>Ability for you to post margin directly to the CCP.</p>	<p>You may be able to post margin directly to the CCP rather than you posting it to us, and us in turn posting it on to the CCP.</p> <p>This form of account may require you to have an account with particular custodians and settlement banks. The custodians and settlement banks are likely to be specified by the CCP.</p> <p>You will have to enter into additional legal documentation with us and the CCP.</p> <p>There will be additional operational requirements which you will need to meet in order to use this type of additional feature.</p>	<p>Transit Risk</p>

Mandatory CCP Provisions

Some CCPs specify certain provisions as mandatory for inclusion in the terms of transactions between clearing brokers and their clients in respect of a relevant CCP clearing service.

Your receipt of a CCP clearing service from us is subject to any such mandatory CCP provisions in respect of the relevant CCP clearing service. You are obliged to obtain and read all mandatory CCP provisions in respect of a relevant CCP clearing service.

Mandatory CCP provisions may be published on the relevant CCP website or provided by us to you and may be amended or supplemented from time to time by the relevant CCP.

BME Supplement

to the Clearing Broker Disclosure Document

Version: January 2021

Introduction

Throughout this document references to “we”, “our” and “us” are references to Barclays Bank PLC. References to “you” and “your” are references to the client. References to the “Disclosure Document” are to our main Clearing Broker Disclosure Document which can be found on our publically available website. References to this “Disclosure Supplement” are to this BME Supplement.

What is the purpose of this document?

As described in the Disclosure Document, EMIR as it forms part of domestic law by virtue of the EUWA requires that, where we are providing services to you that involve us clearing derivatives through an EU or UK central counterparty (CCP), we must provide certain information to you about the choice of accounts, the levels of protection and the implications of different levels of segregation.

This Disclosure Supplement is intended to supplement the information set out in the Disclosure Document in circumstances where we provide clearing services to you through the BME Financial Assets Contract Group or the BME Power Derivatives Contract Group (each, to the extent applicable between us, a BME Clearing Service) at BME Clearing S.A., Sociedad Unipersonal (BME) and you intend to select an Individual Client Account (Agency Model) for such service (not an Individual Client Account (Principal to Principal Model or Omnibus Client Account)). In such circumstances, the contents of the Disclosure Document will apply subject to, and as supplemented and amended by, this Disclosure Supplement and you must review the information provided in this Disclosure Supplement, and the relevant disclosures published by BME, together and in conjunction with the Disclosure Document prior to confirming to us that you would like us to provide such service to you.

Important

Whilst this Disclosure Supplement will be helpful to you when making the above decision, this Disclosure Supplement does not constitute legal or any other form of advice and must not be relied on as such. This Disclosure Supplement when read in conjunction with the Disclosure Document provides a high level analysis of several complex and/or new areas of law, whose effect will vary depending on the specific facts of any particular case, some of which have not been tested in the courts. It does not provide all the information you may need to make your decision on which account type or level of segregation is suitable for you. Further, the information in this Disclosure Supplement is based on our understanding of the Individual Client Account (Agency Model) offered by BME in relation to each BME Clearing Service based on BME’s rules and other disclosures made by BME (see, for example, the BME disclosure document). We would point out that it is sometimes difficult to reconcile this understanding with the provisions of the rule book for the Individual Client Account (Agency Model) at each BME Clearing Service. It is your responsibility to review and conduct your own due diligence on the relevant rules, legal documentation and any other information provided to you on each of our client account offerings and those of BME. You may wish to appoint your own professional advisors to assist you with this.

WE SHALL NOT IN ANY CIRCUMSTANCES BE LIABLE, WHETHER IN CONTRACT, TORT, BREACH OF STATUTORY DUTY OR OTHERWISE FOR ANY LOSSES OR DAMAGES THAT MAY BE SUFFERED AS A RESULT OF USING THIS DOCUMENT. SUCH LOSSES OR DAMAGES INCLUDE (A) ANY LOSS OF PROFIT OR REVENUE, DAMAGE TO REPUTATION OR LOSS OF ANY CONTRACT OR OTHER BUSINESS OPPORTUNITY OR GOODWILL AND (B) ANY INDIRECT LOSS OR CONSEQUENTIAL LOSS. NO RESPONSIBILITY OR LIABILITY IS ACCEPTED

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

FOR ANY DIFFERENCES OF INTERPRETATION OF LEGISLATIVE PROVISIONS AND RELATED GUIDANCE ON WHICH IT IS BASED. THIS PARAGRAPH DOES NOT EXTEND TO AN EXCLUSION OF LIABILITY FOR, OR REMEDY IN RESPECT OF, FRAUDULENT MISREPRESENTATION.

Please note that this disclosure has been prepared on the basis of English law save as otherwise stated. However, issues under other laws may be relevant to your due diligence. For example, the law governing the BME rules or related agreements; the law governing our insolvency; the law of the jurisdiction of incorporation of BME; and the law of the location of any assets

Part One: Application of the Disclosure Document to each BME Clearing Service

The “Agency” Clearing Model

In the context of clearing through a BME Clearing Service using an Individual Client Account (Agency Model), the first three paragraphs of the section of Part One A of the Disclosure Document entitled “The principal-to-principal clearing model” will not apply and the following will apply instead.

As described in the first paragraph of Part One A of the Disclosure Document, most of the CCPs we use adopt the “principal-to-principal” model; however, when an Individual Client Account (Agency Model) is used with a BME Clearing Service, BME’s rules provide that an “agency” model applies. This means that, when clearing a transaction for you through each BME Clearing Service, we will only enter into a single transaction, acting as agent for and on behalf of you as principal, with BME (the Client Transaction). There will be no back-to-back transaction (i.e. a CCP Transaction as described in the Disclosure Document) as there is where the “principal-to-principal” clearing model applies.

Consequently, each Client Transaction under a BME Clearing Service where an Individual Client Account (Agency Model) is used will be a transaction directly between you and BME, albeit with us acting as your agent. Therefore, although we, as your agent, will make payments and deliveries to BME, and accept payments and deliveries from BME, on your behalf, you will be the principal to the trade with BME and will retain primary liability and responsibility for such Client Transactions. However, we are also liable with you for any such Client Transaction on your default, but also on our default, if, following any termination of the Client Transactions, the net amount is owed to BME. In both of these circumstances, BME is entitled to seek recourse against us meaning that we would seek recourse for any such amount from you.

Once a Client Transaction of the type described above has been submitted to and accepted by BME, such Client Transaction will be considered to be “cleared”.

The terms of each such Client Transaction will be governed by BME’s rules and a client clearing agreement between you and us.

Margin

Although we will be acting as your agent in respect of the Client Transactions described above, the discussion in the fourth and fifth paragraphs of the section of Part One A of the Disclosure Document entitled “The “principal-to-principal” clearing model”, in respect of how margin will be called from you and transferred to the CCP and the associated transit risk and the discussion from and including the section of Part One B of the Disclosure Document entitled “Will you provide cash or non-cash assets as margin for the Client Transactions?” to the end of Part One B, will continue to apply except we will be asking you to deliver us margin to transfer to BME on your behalf and we will receive margin from BME on your behalf in respect of the relevant Client Transactions.

Porting

The discussion in the Disclosure Document in relation to the transfer of Client Transactions on a business as usual basis and following our default will continue to apply although, as the Individual Client Account follows the agency model, this will be dependent on any back-up clearing broker agreeing to take the Client Transaction on the same basis.

CCP Transactions

As described above, when clearing a transaction for you through a BME Clearing Service using an Individual Client Account (Agency Model), there is just one transaction, the Client Transaction. There is no back-to-back arrangement and consequently there is no CCP Transaction. Therefore, when reviewing the Disclosure Document in the context of this service, you should read each reference to a “CCP Transaction”, a “CCP Transaction relating to a Client Transaction” or a “CCP Transaction and a matching Client Transaction” (or any equivalent language) as a reference to a “ Transaction”.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Omnibus Client Accounts

As this Disclosure Supplement relates specifically to us providing clearing services to you through a BME Clearing Service where you have selected to use an Individual Client Account (Agency Model), the provisions of the Disclosure Document that relate to Omnibus Client Accounts will not be applicable in the context of this service.

Insolvency Risks – Our Insolvency

The section of Part One C of the Disclosure Document entitled “General insolvency risks” will, in general, continue to apply in the context of clearing through a BME Clearing Service using an Individual Client Account (Agency Model), subject to the following:

- as discussed above, the “agency” clearing model applies here which result in a principal-to-principal relationship between you and BME and therefore, notwithstanding the first bullet point of that section, you may have applicable direct rights and contractual claims against BME and BME may have direct rights and contractual claims against you (although we understand that BME would not, or is unlikely to, seek recourse against you); and
- it should also be noted that that our appointment by you as your agent in respect of the relevant Client Transactions may terminate upon our insolvency, although this will be a matter of fact and interpretation in respect of the applicable context

Insolvency Risks – BME Insolvency

The section of Part One C of the Disclosure Document entitled “Insolvency of CCPs and others” will, in general, continue to apply in the context of clearing through a BME Clearing Service using an Individual Client Account, subject to the following:

- as noted in the second paragraph of that section, in relation to BME insolvency, broadly speaking your rights will depend on the law of the country in which BME is incorporated (i.e. Spanish law and not necessarily English law) and the specific protections that BME has put in place. You should therefore review the relevant BME disclosures carefully in this respect and take legal advice to fully understand the risks in this scenario;
- that section should be read in the light that there is no back-to-back CCP Transaction in respect of any Client Transaction;
- as the “agency” clearing model means that there is no principal-to-principal relationship between us and BME, the rights and obligations described in that section will generally apply as between you and BME, not between us and BME (other than in the context of us acting as your agent); and
- for the reasons discussed above, notwithstanding the third bullet point of that section, you may have applicable direct rights and contractual claims against BME

Close-out netting

In the context of clearing through a BME Clearing Service using an Individual Client Account (Agency Model), the section of Part One C of the Disclosure Document entitled “Close-out netting” will generally apply. However, as discussed above, the “agency” clearing model applies here which results in a principal-to-principal relationship between you and BME. Therefore, the netting of Client Transactions takes place pursuant to the BME rules. There is no netting of transactions between you and us as there are no back-to-back transactions to be netted. The section entitled “closeout netting” should be construed accordingly.

Porting – prohibition and preferential creditors

In the context of clearing through a BME Clearing Service using an Individual Client Account (Agency Model), the section of Part One C of the Disclosure Document entitled “Porting – prohibition” and “Porting – preferential creditors” will not be relevant.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Mismatch of CCP/Client Transaction and Assets

In the context of clearing through a BME Clearing Service using an Individual Client Account (Agency Model), the section of Part One C of the Disclosure Document entitled “Mismatch of CCP/Client Transaction and Assets” will not be relevant.

Copyright © 2017 by FIA, Inc. FIA, Inc. has not reviewed or endorsed any modifications that may have been made to this document.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

Part Two: CCP client account structures – BME Individual Client Account (Agency Model)

The column below is inserted into the table entitled “Typical client account characteristics” in Part Two of the Disclosure Document (provided that each reference to “CCP Transactions” in the first column of the table shall be deemed to be a reference to “Client Transactions” in the context of this new column) in order to provide an overview of the main protections afforded by and the main legal implications of the use of an Individual Client Account (Agency Model) at BME in the context of us providing clearing services to you through a BME Clearing Service.

The qualifications and comments set out at the start of Part Two of the Disclosure Document apply equally to the descriptions given below and these descriptions have been prepared on the basis of publicly available disclosure documents made available by BME. We are not responsible for, and do not accept any liability whatsoever, for any content or omissions or inaccuracies contained in the information produced by BME.

Individual Client Account (Agency Model) – BME Clearing Service	
Who will the CCP Transactions recorded in the account relate to?	Only assets and Client Transactions that relate to you should be recorded in this type of Individual Client Account.
Which losses can assets recorded in the account be used for?	Assets that are provided to BME as margin for Client Transactions recorded in this type of Individual Client Account may only be used to cover losses in that account.
Will the CCP know which CCP Transactions and types of assets relate to you?	Yes
Will the CCP record the assets provided by value only or will it identify the type of asset provided?	BME should identify in its records the type of asset provided as margin for this type of Individual Client Account.
Will the CCP Transactions recorded in the account be netted?	Client Transactions are likely to be netted, but should not be netted against the Client Transactions relating to any of our other clients.
Will the margin be calculated on a gross or net basis?	The margin requirement for this type of Individual Client Account will typically be calculated on a net basis.
Will you have to enter into any documentation or operational arrangements directly with the CCP?	You may have to enter into legal documentation to which BME is a party. It is also possible that you will have to set up some operational arrangements with BME directly.

Individual Client Account – BME Clearing Service	
Transit Risk	Yes
Fellow Client Risk	No
Liquidation Risk	Yes (unless BME is able to port the assets recorded in the account or is able to transfer the assets to you without needing to liquidate some or all of them first).
Haircut Risk	Yes
Valuation Mutualisation Risk	No
CCP Insolvency Risk	Yes
How likely it is that porting will be achieved if we default?	If you have satisfied all of BME’s and back-up clearing broker’s conditions, porting is more readily facilitated in the event of our default.

This document is based on the January 2016 version of the ISDA and FIA Clearing Member Disclosure Document in which both the International Swaps and Derivatives Association, Inc. and FIA, Inc. have copyright.

-
- ¹ Regulation (EU) No 648/2012 on OTC derivatives, central counterparties and trade repositories.
- ² The ESMA Questions and Answers on EMIR dated November 2013 confirm that EU clearing members of non-EU CCPs are not required to comply with Article 39 when offering client clearing on non-EU CCPs. At that time the UK was part of the EU and this disclosure is designed for clearing on EU CCPs and UK CCPs only.
- ³ Commission Delegated Regulation (EU) No 2017/2154 supplementing Regulation (EU) No 600/2014 with regard to regulatory technical standards on indirect clearing arrangements, and Commission Delegated Regulation (EU) No 2017/2155 amending Commission Delegated Regulation (EU) No 149/2013 with regard to regulatory technical standards on indirect clearing arrangements.
- ⁴ ESMA confirms in paragraphs 9, 10 and 92 of the May 2016 Final Report on the Indirect Clearing RTS that (indirect) clearing on recognised non-EU CCPs is out of scope of the Indirect Clearing RTS requirements. At that time the UK was part of the EU and this disclosure is designed for clearing on EU CCPs and UK CCPs only.
- ⁵ References to “client clearing agreement” in this disclosure shall mean the agreement between you and us that governs the relevant Client Transactions together with any amendments thereto and/or any ancillary or related documents entered into between you and us from time to time.
- ⁶ This description is based on Articles 6(2)(a) and 6(3) of the Indirect Clearing RTS.
- ⁷ Porting may be envisaged under local insolvency law for all relevant accounts, including Basic Omnibus Indirect Client Accounts.
- ⁸ This paragraph refers to porting not being available “ordinarily” with regard to Basic Omnibus Indirect Client Accounts. This is because porting with respect to such accounts is not required under the Indirect Clearing RTS but may be envisaged under local insolvency law for all relevant accounts, including Basic Omnibus Indirect Client Accounts.
- ⁹ This meaning is derived from Article 39(9) EMIR.
- ¹⁰ This description is based on Articles 39(2) and 39(9) EMIR.
- ¹¹ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary account to any negative liquidation balances owed in respect of your clients’ accounts.
- ¹² This description is based on Articles 39(3) and 39(9) EMIR.
- ¹³ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary ICA to any negative liquidation balances owed in respect of your clients’ accounts.
- ¹⁴ This description is based on Articles 4(2)(a) and 4(4)(a) of the Indirect Clearing RTS. Please note that we have based our analysis on the minimum requirements as set out in the Indirect Clearing RTS. Therefore, we have assumed that positions in a Basic Omnibus Indirect Client Account would be held on a net basis and margin would also be collected on a net basis.
- ¹⁵ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary account to any negative liquidation balances owed in respect of your clients’ accounts.
- ¹⁶ This description is based on Articles 4(2)(b) and 4(4)(b) of the Indirect Clearing RTS.
- ¹⁷ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary account to any negative liquidation balances owed in respect of your clients’ accounts.
- ¹⁸ With regard to direct clearing, this section refers to excess margin as described in Article 39(6) and the ESMA Questions and Answers on EMIR dated February 2014. With regard to indirect clearing, this section refers to excess margin as described in Recital 5 of the Indirect Clearing RTS.
- ¹⁹ Financial Services and Markets Act 2000 (Recognition Requirements for Investment Exchanges and Clearing Houses) Regulations 2001 SI 2001/995.
- ²⁰ This paragraph refers to porting not being available “ordinarily” with regard to Basic Omnibus Indirect Client Accounts. This is because porting with respect to such accounts is not required under the Indirect Clearing RTS but may be envisaged under local insolvency law for all relevant accounts, including Basic Omnibus Indirect Client Accounts.
- ²¹ In preparing the overview of typical indirect client account characteristics, we have based our analysis on the minimum requirements as set out in the Indirect Clearing RTS.
- ²² The links are to the documents used to prepare the summary in Part Two. It is not clear whether these are the documents published by the CCPs pursuant to Article 39(7) and we assume they may be updated in due course in any event.
- ²³ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary account to any negative liquidation balances owed in respect of your clients’ accounts.
- ²⁴ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary account to any negative liquidation balances owed in respect of your clients’ accounts.
- ²⁵ Please note that the clearing agreement between you and us may allow us to apply any positive liquidation balance of your proprietary ICA to any negative liquidation balances owed in respect of your clients’ accounts.
